

BALTIC

BALTIC, THE PERFECT BASIS FOR YOUR DRESSED TABLE

The new Baltic tableware is perfectly suitable for festive dinners and everyday meals alike. Baltic stands out thanks to its stylish, slim-line design. It is available in 4 shapes that act as the basis of any dinnerware set. Each shape comes with an elegant raised edge, making it eminently suited for a wide range of uses and settings. The plates for instance also perfectly lend themselves to serving pastas, salads and soup. The premium quality stoneware used means this series is suited for the dishwasher on a day-to-day basis.

ELEMENTARY

An ageless combination that works in any home interior. The matt finish infuses this tableware with a sleek, modern look. In fact, the two colours can be combined but work every bit a treat when used as a standalone set. This series is available in Black and White and is a credit to any home interior.

ENRICHED GLAZING

This refreshing colour combination delivers a gorgeous colour palette as the perfect answer for anyone looking for stoneware that is a little different from the usual. The two colours can be combined but work every bit a treat when used on their own. The original Peach & Grey colours will lift the appetising appeal of any dish to a different dimension.

TEXTURED GLAZING

These unique colour and texture combinations are the most sumptuous finishes in the Baltic series, each with their own story to tell:

- Magara is the Turkish word for 'cave' and is in reference to the rugged and rustic finish in earth tones.
- Luna refers to the moon, with the colour and surface texture conjuring up a lunar landscape.
- Vanilla delivers that typical ice cream colour, including the creamy texture and the actual black vanilla specks.

On the strength of these textures, this series is certain to prove the ultimate eye catcher on any table.
