INNOVATIVE DESIGN FOR PURE COOKING DELIGHT

Discover the Cascade cookware set of pans from Cosy&Trendy where functionality and style meet. Made of high-quality 18/10 stainless steel, these pans feature heat-resistant handles and functional lids with integrated drain function. The encapsulated bottom with aluminum core ensures fast, even heating and long-lasting performance. The Cascade cookware set includes a 16 cm sauce pan and 16, 20 and 24 cm cooking pots and is suitable for all heat sources.

DESIGNED FOR CONVENIENCE

No messing around with the Cascade pans! The heat-resistant handles allow you to safely manage the pans and lids without oven mitts. The handles stay cool, so you always have a firm grip. The inside of the pots have contents markings, eliminating the need for measuring cups to measure out ingredients.

CONVENIENT LIDS

The smart lids feature a handy drain function, so you don't need a colander for pasta or potatoes, for example. The design with small holes in the lid also allows steam to escape and prevents your pots from boiling over. In the recesses at the top of the lid, you can easily place your spoon after stirring. This keeps your kitchen clean and organized.

SUSTAINABLE PERFORMANCE

The Cascade series is made of 18/10 stainless steel for great durability and lasting quality. The encapsulated bottom with aluminum core not only ensures fast and even heating, but also prevents corrosion, so the pans retain their beautiful appearance. This set is suitable for all heat sources and is dishwasher safe. Due to the synthetic handles, the pans are not suitable for use in the oven.
