## A FLOWER AS A PLATE

The ceramic from the Astera range evokes memories of a traditional Japanese dinnerware with chrysanthemum motifs. The beautifully executed petals are visible and tactile. The petals fan out and form soft grooves that transition into a flat plate surface. Due to the reactions of the glaze in the kiln, this range treats your guests to spectacular colour variations that always attract attention. Wide choice of plates, dishes and bowls and available in Pure, Pearl and Ocean colours.

### JAPANESE TRADITION

Dinnerware with chrysanthemum motifs was very popular in the Ritsuryo period. Chrysanthemums, part of the extensive Astera family, were not native Japanese flowers. They were introduced from China and have been a very popular flower since the 7th century.

### LET YOUR TABLE BLOOM

With plates in 10, 12, 16, 20 and 21 cm diameter and several bowls, cups and platters, the Astera range brings a great choice for every caterer and (home) cook.

### PEARLESCENT AND DARK BLUE

With rich individual shades, the Astera dinnerware brings any table to life. The range is available in a white (Pure), paler (Pearl) and darker (Ocean) version. Both the pearl and blue versions have fine colour accents that further highlight the floral motifs.
