

# CERAPRO

## SUSTAINABLE COOKING WITH ELEGANT DESIGN

The stylish pots and pans in the Cerapro range guarantee healthy and ecological cooking. They are made of 100% recycled, forged aluminium with an induction plate that covers the entire diameter of the base. It conducts heat perfectly, saving energy when you cook.

Suitable for all hobs and available in two natural colours: Clay and Terracotta.

### SUSTAINABLE COATING

The inside of the Cerapro series is coated with an innovative, PFAS-free, ceramic anti-stick layer, reinforced with titanium. Food doesn't stick, the coating is especially scratch-resistant, and the pans are easy to clean.

### HANDY HANDLES

All the pots and pans have stylish, stainless-steel handles. The long, ergonomic handle of the pans is silicon-coated, guaranteeing a comfortable grip and safety whilst cooking. And after searing a steak, for example you can simply slide the pan into a hot oven up to 200°C to continue cooking which makes the pan super versatile.

### SAUCEPAN

The Cerapro saucepan is the ideal partner for ambitious cooks. Its 16cm diameter, the rounded base and clear lid make it perfect for preparing sauces. The user-friendly pouring lips in the side make it easy to serve sauces elegantly at table as well.
