

CONICO

CONICAL TABLEWARE WITH UNIQUE RIM

Fancy a tasty snack? It will taste extra delicious in this beautiful conical set in quality earthenware. The striking raised edges in a darker color give a recognizable character and feel to the Conico series. The light sand colors perfectly frame all your culinary creations and fit any table all year round. In addition, the reactive glazing gives each piece its own unique look, adding character to your table. The sleek design and light colors make this series modern, yet classic. The unique conical shape with inward-facing rim stands out among other dinnerware. This edge also better protects your tableware from "chipping". With a wide range of plates, bowls and platters, Conico also lends itself perfectly to various small snacks and appetizers. Easily stackable, dishwasher safe and available in the color "Sand".

REACTIVE GLAZING

Each piece in this series is completely unique. The reaction of the glaze in the kiln gives the pottery a slightly different appearance each time, yet blends beautifully with the other pieces in the collection. Thus the earth colors bloom in rich variations.

IDEAL FOR SNACKS

The Conico series offers you a wide selection of plates, cups, bowls and platters. So you have the ideal presentation for every dish or snack.

STYLISH AMBASSADOR

The dinnerware from the Conico series combines a rather classic feel and color with a sleek design and shape. Striking without drawing attention away, the tableware makes for a cozy decorated table.
