## AN EYE FOR PRESENTATION

Iris porcelain dinnerware is inspired by the intriguing beauty of the human eye. With exquisite reactive glazing, each piece is unique and brings character to the table. The different colour variations add a surprising sense of depth to the plates.

This versatile dinnerware combines accessible, broadly applicable plates and bowls with some eye-catching shapes. The oblong serving plates are not only suitable for various amuses and dishes. The durability and stylish look of the porcelain also make them a great alternative to the popular wooden serving boards in the catering industry. Ideal for food sharing.

The unique design of the Iris dinnerware with subtle variations in speckles, dots and stripes leaves no one unmoved. The large mirror and modern coupe shape give every table a contemporary look. The dark and lively outer edges give every dish a beautiful frame.

### SERVE IN STYLE

The oblong serving plates come in handy whether you run a restaurant or host an intimate dinner at home. These elegant and versatile 30- and 46-cm plates offer creative presentation of dishes and a cosy sharing experience.

### UNIQUE PIECES

Each item in the Iris series is one-of-a-kind. Thanks to the reactive glazing, each piece takes on a unique look during firing in the oven. Let yourself be enchanted by the organic colour variations.

### STURDY PORCELAIN

The versatile plates and serving dishes made of sturdy porcelain can take a beating. They stack easily and after use you can put them in the dishwasher without any worries.
