

# MOSCOW MULE

## TOO NICE TO HIDE

There is little as refreshing as a sip of a well-prepared cocktail. Our transparent Moscow Mule glasses are unique and add an extra touch of elegance and style to your drinks.

The Moscow Mule glasses are made of high-quality borosilicate glass, making them surprisingly light to hold, yet incredibly durable. You can enjoy your cocktail without worrying about breakage. With our Moscow Mule glasses, every sip becomes an intense moment. Add these beautiful glasses to your collection and make every aperitif moment a special occasion. Cheers!

### TRANSPARENT ENJOYMENT

What makes our Moscow Mule glasses unique is their transparency. Unlike the familiar copper cups, you can now visually enjoy the beautiful colours and layers of your Moscow Mule or other cocktail. Watch the ice mix with the sparkling ginger beer and fresh lime juice as your cocktail comes to life.

### SMOOTH OR WITH DIMPLES

We offer two beautiful versions of our Moscow Mule glasses. The first version has a smooth exterior for a sleek and elegant look. The second version features the characteristic dimples hammered inwards, adding a unique texture and flair to your drinking experience. Our Moscow Mule glasses are available in both clear glass and the more mysterious 'smoky grey'.

### VERSATILE AND DISHWASHER-SAFE

Our very light Moscow Mule glasses are a pleasure to drink from. As they are made of shatterproof borosilicate, the glasses are also suitable for cosy hot drinks. Unlike copper mugs, they also go in the dishwasher without any concerns.
