PROOF

BY COSY & TRENDY

DEVELOPED WITH FOODSERVICE PROFESSIONALS, EXCLUSIVELY FOR FOODSERVICE PROFESSIONALS.

Welcome to the world of PROOF by Cosy&Trendy, where timeless design meets the highest quality standards, crafted exclusively for the demanding foodservice industry. As a brand born from decades of expertise and a deep understanding of the culinary world, PROOF is not just another tableware collection; it is the result of years of experience, innovation and collaboration with the very professionals who demand nothing but the best.

At PROOF, we believe that a truly memorable dining experience goes beyond the cuisine. It's about the presentation, the ambiance, and the profound impact that exceptional tableware can have on a meal. Our mission is to provide chefs with tableware that exceeds the rigorous demands of the industry. That's why each piece in the PROOF collection is meticulously crafted from high-quality porcelain, ensuring durability and resilience even in the most intensive environments.

Our journey began over 20 years ago with Cosy&Trendy, emerging from the rich legacy of Billiet-Vanlaere, a family-owned company with over 90 years of experience in tableware and cookware. Over the years, we've listened closely to our clients – restaurant owners, chefs and hospitality professionals - who expressed a clear need for a brand that offers exclusive, on-trend designs without the retail presence that could dilute the uniqueness of their dining experience.

PROOF was developed with these insights at its core. Our collection features contemporary, trend-forward designs, as well as timeless classics, that bring flair to any table setting, without compromising on the durability and quality that is essential in the foodservice industry. Whether it's the vibrant colors or the sleek forms, every piece is designed to create a "wow" effect, elevating each dish to new heights and enhancing the overall dining experience.

Experience the next level of dining with PROOF by Cosy&Trendy—tableware that's not just made for the foodservice industry, but shaped by it.
