Cast iron teapots are resistant to wear and tear and keep your tea nice and hot for a long time. The material does not react with the contents and does not add unwanted flavours or chemicals. With their classic Japanese design, the teapots exude timeless style. They suit both traditional settings and modern interiors.

TRADITIONAL DESIGN

Our cast iron teapots bring the elegance and simplicity of the Japanese tea ceremony to your own living room. With their traditional design and refined finish, they invite a moment of reflection and relaxation.

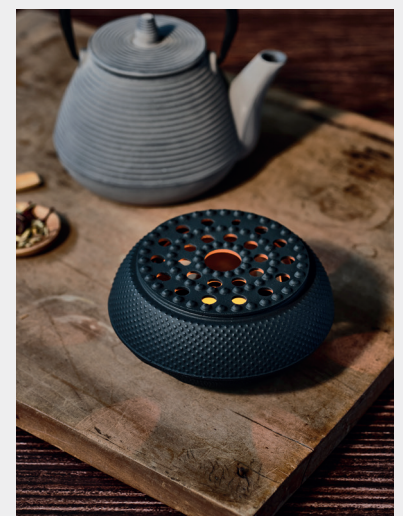

STYLISH STATEMENT

The black or grey cast-iron finish and refined exterior with traditional textures give these teapots a timeless elegance. The design and carefully chosen details make this collection more than just teapots; they are decorative statements in your interiors.

ALWAYS HOT TEA

Cast iron is known for its ability to retain heat. Want to keep your tea even warmer? Then place a tea light under the pot in a matching cast iron tea light holder. That way you can always pour a hot cup of tea, even if the conversations take a little longer.
